Preparing CBA game results for the website

Below are detailed instructions and screen shots of how to prepare a CBA game for the web. Before the details, I want to describe the process in broad strokes.

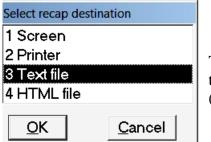

- 1. We use ACBLScor to produce a text file with the recap <u>AND</u> traveler score data
- 2. We use Bridge Composer to:
 - a. Load the PBN file created earlier with the dealer machine software
 - b. Import the data (text file) created in step 1 above
 - c. Save the result as an HTM file
- 3. Use the Results Upload program to send the HTM file to the website.
- 4. Finally, don't forget to do the DBADD command to post the game to the month end summary.
- 5. Also note that if you have to make a correction to a board, you will have to rebuild the text file and remerge in Bridge Copmoser

Note that I created the screen images on my computer at home and the drive letters may not match CBA. In those screen shots, I have included a note to that effect. My samples are for Tuesday 12/30/14.

In ACBLSCOR

Press F 11 to get the menu and do function LRECA to create the press recap

LEAD	Section leaders (F4)
LIST	List scores in pair order or rank order (F8)
LRECA	Recap and/or press to screen/file/printer/internet
MEMO	Edit memos to print on recap
MPED	Edit masterpoint awards
	Enter or modify player pamos (E2)

The report needs to go to a text file (.txt)

The name of the file is the same as the game and will be suggested for you. If the game had 2 or more sections, this screen will appear:

Save this too to a text file. It will suggest the name BOARDS.TXT but this is WRONG!!

Enter the same file name as used before

Since you are using the same file name, the program will ask you about Appending (adding) or Overwriting (replacing) the existing file.. The right answer is **OVERWRITE**

Select option (file already exists)							
1 Append to existing file							
2 Overwrite (original file de	estroyed)

It will also ask about Specifying board numbers or including all. Answer: All boards played

If you had 2 or more sections, use F7 to switch to the next section and repeat these steps for each section (LRECA and TS). Note that on the additional sections you will be asked about Overwrite or Append on each save. The answer is **APPEND**.

Now we are ready for Bridge Composer. Start the program.
