

Learning Points – Improving Our Partnerships

Continual Improvement
Shared Learning

Thanks to Joe Pike for the Excel approach he defined.

How do we improve?

There are many ways. The key is to choose what works best for you and your goals. Play more; Play with Mentors; Take Lessons; Read books / Study / Use Software; Seek / Try New Ideas; Experiment - Develop new approaches on your own; Work things out / do some simulations; Document your agreements. Remember, Bridge is PARTNERSHIP - **Learning benefits both partners**. Collaborative learning seeks balance, not dominance. Effective learning reinforces what we do well and focused on major causes. We change what will have most impact to improve our game.

How would you like to get 2x the benefit from each game you play? Start with your **PAIR** game.

Study what you do. Identify improvement areas with your partner. Track your progress.

Put your *post mortem* to work! The key ingredients you need are: Personal scorecards; Hand records – if available; Press Reports (available electronically); **Constructive Balanced Approach**

CBA approach

Take Partner's perspective. Start with empathy. Identify what you yourself could have changed 1st.

Avoid the heat of the moment. Always seek balance. Give and receive objective feedback objectively:

- **Continue** (done well), **Start** (not done), **Stop** (done ineffectively).
- Objective, Actionable, Relevant and Timely
- Turn off emotions. Work together for mutual benefit.

Analyzing a Pair Game

Get hand record and personal scores. Get copy of Press Report.

Find very low scores.

Problem solve your actual results.

Look at what the field did. Identify

PAR Result (Judgment/Goal for board). Share learnings. Analyze

tendencies. Pick 1 or 2 high impact changes to make 1st.

Turbocharge your learning using a spreadsheet (see .pps):

- Download Press Report in Excel
- Edit download to usable format
- Find 3-5 hands worth studying
- Assess charges (learning purposes)
- Add metrics (MPs lost, success against A/B/C stratas, types of errors).
- Share with partner for joint PoV
- Accumulate several match results. Identify patterns & learning goals.
- Agree to joint corrective actions on cumulative results, not just one bad board. Check simulations.
